The glow from the screen highlighted the mystified look that flashed across his face. He shrugged. "Right now they're wide open, right down below us.".."Could be," Swley agreed noncommittally..He looked at me, grinned, and shrugged..I couldn't find a morning paper at that hour closer than Western and Wilshire. The story was on page seven. Fortunately they found the body in time for the early edition. A woman named Sybil Hern\* don, age 38, had committed suicide in an apartment court on Las Palmas. Some defenses against this experience take the form of asserting there's no such thing as great art; some, that whatever moves one intensely is great art. Both are ways of asserting the primacy and authenticity of one's own experience, and that's fine. But whatever you (or I) like intensely isn't, just because of that, great anything, and the literary canon, although incomplete and biased, is not merely an insider's snobbish conspiracy to make outsiders feel rotten.
