her own silken flanks, her legs sliding through waterweeds. All trouble and restlessness washed. Her mother Ayo and her mother's sister Mead were wise women. They healed Otter as best they could with warm oils and massage, herbs and chants. They talked to him and listened when he talked. Neither of them had any doubt but that he was a man of great power. He denied this. "I could have done nothing without your daughter," he said. "You are safer here." and then a vehicle shot along, as if cast from a single block of black metal; these vehicles had no. "Is she hurt?" the woman said. "Oh, the traitorous vermin!" She was stroking down the mare's right foreleg. Her hands came away covered with blood-streaked horse sweat. "There, there," she said. The brave girl, the brave heart." The mare put her head down and shivered all over with relief. "What did you keep her standing there in the middle of the dogs for?" the woman demanded furiously. She was kneeling at the horse's leg, looking up at Ivory who was looking down at her from horseback; yet he felt short, he felt small. "But you can't have me without the music." Only in silence the word, rose up from among the students of the school, women and men of power, knowledge, and pride, sworn. you safe. To keep you with the mule-breeders, and the nut-pickers, and these." She struck the miners forbade it, earnestly believing it was the worst of bad luck for a man to pick up a shovel. BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his. "Really? Why not?" Small islands and villages are generally governed by a more or less democratic council or Parley, headed, or represented in dealings with other groups, by an elected Isleman or Islewoman, In the Reaches there is often no government other than the Isle Parley and the Town Parleys. In the Inner Lands, a governing caste was established early, and most of the great islands and cities are ruled at least nominally by hereditary lords and ladies, while the Archipelago entire was governed for centuries by kings. Towns and cities are, however, frequently almost entirely self-governed by their Parley and merchant and trade guilds. differentiation ("division of labor") than in the Archipelago. of Earthsea. "Anywhere. Run away." at me. Her eyes froze. But to that I had grown accustomed. I asked where the Inner Circle was. "You never sent to me, you never let me send to you, all the time you were gone. I was just. So he came to feel that those hours were true meetings with her, and he lived for them, without knowing what he lived for until his feet were on the cobbles, and his eyes on the harbor and the far line of the sea. Then he remembered what was worth remembering. They walked past the roaster tower, past the old shaft and the new one, on into the long valley where Otter had taken Licky the first day he was there. It was late autumn now. The shrubs and scrubby grass that had been green that day were dun and dry, and the wind rattled the last leaves on the bushes. To their left a little stream ran low among willow thickets. Mild sunlight and long shadows streaked the hillsides. The Creation of Ea contains no clear references to an original unity and eventual separation of dragons and humans, but this may be because the poem in its presumed original form, in the Language of the Making, dated back to a time before the separation. The best evidence in the poem for the common origin of dragons and humans is the archaic Hardic word in it that is commonly understood as "people" or "human beings," alath. This word is by etymology (from the True Runes Atl and Htha) "word-beings," "those who say words," and therefore could mean, or include, dragons. Sometimes the word used is alherath, "true-word-beings," "those who say true words," speakers of the True Speech. This could mean human wizards, or dragons, or both. In the arcane Lore of Paln, it is said, that word is used to mean both wizard and dragon. sea, A seabird flying in the grave. After the death of Orm the dragons remained a threat in the West, especially when provoked by dragon hunters, but they withdrew from their encroachments on peopled islands and peaceful shipping. Yevaud of Pendor was the only dragon to raid the Inward Lands after the time of the Kings. After a long pause he went on. "You know that a dragon brought back our Lord Sparrowhawk, with the young king, from the shores of death. There were people of the Hand there whom he trusted. One of them was a man called Crow, a wealthy recluse, who had no gift of magic but a great passion for what was written, for books of lore and history. It was Crow who had, as he said, stuck Tern's nose into a book till he could read it. "Illiterate wizards are the curse of Earthsea!" he cried. "Ignorant power is a bane!" Crow was a strange man, willful, arrogant, obstinate, and, in defense of his passion, brave. He had defied Losen's power, years before, going to the Port of Havnor in disguise and coming away with four books from an ancient royal library. He had just obtained, and was vastly proud of, an arcane treatise from Way concerning quicksilver. "Got that from under Losen's nose too," he said to Tern. "Come have a look at it! It belonged to a famous wizard."
