"You have to know something about the power, see," she said at last, and looked at Dragonfly with one eye. Her other eye looked a little off to the side. The dark sea was so quiet that the stars were reflected here and there on the sleek lee side of the long swells. Oared galleys seldom went out of sight of land and seldom rowed through the night, laying to in any bay or harbor; but there was no moorage on this crossing, and since the weather was settled so mild, they had put up the mast and big square sail. The ship drifted softly forward, her slave oarsmen sleeping on their benches, the free men of her crew all asleep but the helmsman and the lookout, and the lookout was dozing. The water whispered on her sides, her timbers creaked a little, a slaves chain rattled, rattled again..Berry ducked his head and muttered. His eyes were dull. It seemed to Irioth that the man had been poisoned. When Berry went out again, the woman came closer and said, resolute, in a low voice, "There's no harm in him but the drink, but there's not much left of him but the drink. It's eaten up most of his mind, and most of what we have. So, do you see, put up your money where he won't see it, if you don't mind, sir. He won't come looking for it. His dreams of her were never of her yielding to him, but of himself yielding to a fierce, destroying sweetness, sinking into an annihilating embrace, dreams in which she was something beyond comprehension and he was nothing at all. He woke from those dreams shaken and shamed. In daylight, when he saw her big, dirty hands, when she talked like a yokel, a simpleton, he regained his superiority. He only wished there were someone to repeat her sayings to, one of his old friends in the Great Port who would find them amusing. ""I have the cheese money,""" he repeated to himself, riding back to Westpool, and laughed. "I do indeed," he said aloud. I won't put a semblance-spell on you till we're on Roke Island."..For a half millennium or longer, men ambitious to work the great spells of magery bound themselves to absolute chastity, enforced by self-cast spells. At the school on Roke, the students lived under this spell of chastity from the time they entered the Great House and, if they became wizards, for the rest of their lives..She came to the door and muttered some kind of greeting. They daunted her, these Masters of Roke, and also their presence meant that the peaceful time was over, the days of walking in the silent summer forest with the Patterner. Roke has remained without an archmage. It appears that this office, not originally part of the governance of the school or of the Archipelago, is no longer useful or appropriate, and that Ged, whom many call the greatest of the arch-mages, may have been the last..least, did not live in such luxury as Golden had imagined. Ivory flourished his staff a little in greeting him. The sorcerer looked him up and down and said, "One man works weather on this ship. If it's not me, I'm off.".."To destroy you."..Though he seldom left the city, Early prided himself on his knowledge of all the Archipelago, gleaned from his sailors' reports and the marvelous ancient charts kept in the palace.
