The cell is an intricate assemblage of chemical reactions, chemical building blocks, chemical products, and physical structures, all of which influence one another. Some genes are inhibited and some are stimulated, in a variety of ways depending on subtle factors, with die result that different cells in your body have genetic equipment in which only characteristic parts are working at characteristic rates..After he left, none of us said a word for a long time. But I agree (see question S) that Tolkien is a good, interesting, minor writer whose strong point is his payssages moralists. Ditto C S. Lewis, in his Naraya books. As for other writers mentioned, only strong, selective blindness could miss the Vancian cynicism or the massive Dunsanian irony (sometimes spilling over into despair) which make their heroism far from simple or unquestioned-by-the-authors-them-selves. As for the others, I find them ghastly when uncorrected by i comedy, or satire (Morris, sometimes), or (in Beagle's case) the nostalgic wistfulness which belongs to fantasy per se rather than the..too much tune has passed and he cannot find it.
