I was on Mullholland. I kept going west for a long time, crossed the San Diego Freeway, into the Santa Monica Mountains. The pavement ends a couple of miles past the freeway, and there's ten or fifteen miles of dirt road before the pavement picks up again nearly to Topanga. The road isn't traveled much, there are no houses on it, and people don't like to get their cars dusty. I was about in the middle of the unpaved section when Detweiler seemed to calm down. I pulled over to the side of the road and cut the engine. The San Fer-.another. It was Christmas before he was done. Your clone is the result of your nucleus being placed into a foreign egg cell and the foreign cytoplasm in that egg cell will surely have an effect on the development of the clone. The egg will have to be implanted into a foreign womb and that, too, will have an influence on the development of the organism..It isn't the realists who find life dreadful. It's the romancers. After all, which group is trying to escape from life? Reality is horrible and wonderful, disappointing and ecstatic, beautiful and ugly. Reality is everything. Reality is what there is. Only the hopelessly insensitive find reality so pleasant as to never want to get away from it But pain-killers can be bad for the health, and even if they were not, I am damned if anyone will make me say that the newest fad in analgesics is equivalent to the illumination, which is the other thing (besides pleasure) art ought to provide. Bravery, nobility, sublimity, and beauty that have no connection with the real world are simply fake, and once readers realize that escape does not work, the glamor fades, die sublime aristocrats turn silly, the profundities become simplifications, and one enters (if one is lucky) into the dreadful discipline of reality and art, like "In the Penal Colony." It seemed self-evident to him that nobody in his right mind would want to get killed, or to be sent to places he'd never heard of by people he'd never met in order to kill other people he didn't know. Therefore nobody in his right mind would be in the Army. But since the Army was full of people whom it had judged to be acceptably sane and normal, it seemed to follow that the Army's ideas of what was normal had to be very strange. Now, to transfer into something like Engineering seemed on the face of it to be a perfectly natural, reasonable, constructive, and desirable thing to want to do. And that seemed enough to guarantee that the Army would find the request unreasonable and him unsuitable. "We sure did, and we were lucky to have Marty Ralston along. She fed me, clothed me, educated me, after a fashion, tried to teach me all her conjures, but I never could take 'em seriously." He grinned sheepishly. "I did chores for her and eventually became a sort of assistant, I guess. I helped her birth babies . . . I mean, deliver babies a couple of times, but that didn't last long.
